## OUR COMMUNITY

The PS94 community at our February Events: the Glow Party, Valentine's Day Sale and VEX competition!

## VOLUNTEER SPOTLIGHT

Our PTA and school community would not be successful without our wonderful volunteers. We're highlighting a few staff members who take extra time out of their days to help coach students in extracurriculars.

### COLLEEN HOFFMAN (4th grade special education teacher at PS 94)

"What I love most about the PS 94 community is the friendly, family atmosphere that naturally occurs here. This closeness provides a level of comfort between the staff, students and families which is very special! Being the Vex IQ Robotics Coach has provided me with an added bonus of forming an even closer connection to many 4th and 5th graders and their families as we work together in reaching goals we have set for the team."

### SEUNG CHUNG-GLUS (Computer science teacher at PS 94)

"PS94 is a warm and caring environment where we want the best for each other. We take the extra time to help each other out and celebrate one another's achievements, both big and small. I also love that at 94, we strive for excellence in all areas. We want everyone to reach their full potential, even if that means stepping into a new situation to learn new skills that grow and stretch and strengthen us."

### PARENT ENGAGEMENT SURVEY

Our survey is still open and would love to hear from you.
